

FASTBALL RGL

PERENNIAL RYEGRASS

FASTBALL RGL

PERENNIAL RYEGRASS

BIG LEAGUE PERFORMER

- EXCELLENT SEEDLING VIGOR
- RUST RESISTANCE
- GRAY LEAF SPOT RESISTANCE
- IMPROVED WEAR TOLERANCE
- FINE LEAF TEXTURE

Fastball RGL (*Resistance to Gray Leaf*) is a top-quality perennial ryegrass ideal for all fine turf needs. It's dark green color and fine leaf texture make it an ideal choice for golf applications. It's excellent seedling vigor and fast establishment are ideal to crowd out weeds and fill in bare spots. These traits combined with improved wear tolerance make it a great choice for interseeding thinning sports fields. It's resistance to pathogens also make it an ideal choice for overseeding dormant warm-season grasses. **Fastball RGL** leaves the competition swinging.

NTEP DATA

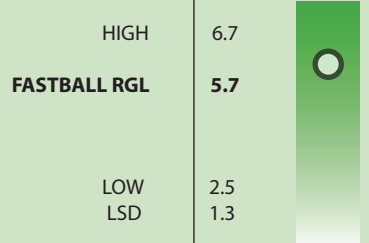

VARIETY	LEAF TEXTURE	GRAY LEAF SPOT RESISTANCE	TURF QUALITY MEAN	TRAFFIC TOLERANCE*	SEEDLING VIGOR**
FASTBALL RGL	6.3	8.0	5.9	5.8	6.8

AREAS OF USE

- HIGH-TRAFFIC AND HEAVY WEAR AREAS
- PROFESSIONAL SPORTS TURF
- TEES AND FAIRWAYS
- SOD PRODUCTION
- LAWN AND LANDSCAPE
- HOME LAWNS
- TOP-QUALITY OVERSEEDING FOR WARM-SEASON TURF

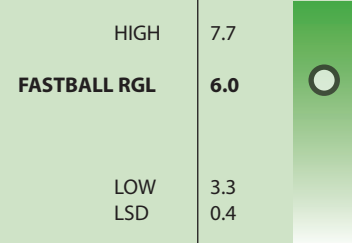

RUST RESISTANCE

Fastball RGL exhibits extremely high resistance to rust.

2011 Turf Trial, Jefferson, OR

GENETIC COLOR

Fastball RGL has excellent genetic color. It is very dark green making it ideal for golf course and sports turf use.

2012 NTEP Mean Color Rating

SEEDING AND OVERSEEDING Fastball RGL readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs. per 1000 sq. ft. Periodic reseeding at 3-5 lbs. per 1000 sq. ft. maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs. per 1000 sq. ft. is suggested for gold course greens. And 7-10 lbs. per 1000 sq. ft. (300-450 lbs. per acre) for tees, fairways and roughs.

MAINTENANCE Fastball RGL will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 1/2" and above. Due to its tillering ability and compact profile Fastball RGL can be maintained at fairway cutting heights when appropriate management practices are observed.
